

Consent for Wellness Screening Tests

As part of **our commitment** to provide you with the most comprehensive eye care, we offer advanced high-definition imaging and retinal photos which allow our doctors to gain an earlier indication of any sight-threatening conditions that may be developing in your eyes.

Many eye problems can develop **without warning** and progress without symptoms. In the early stages, you may not even notice a change in your vision, but sight threatening conditions such as macular degeneration, glaucoma, and diabetic retinopathy can be detected with a thorough evaluation of the retina.

The Wellness Screening Tests are fast, simple procedures that will help the doctors detect common eye diseases in the earliest phases. Our doctors **strongly encourage** all patients to undergo these valuable tests as part of your annual eye exam, and particularly for any individuals with any of the following:

- Spots, floaters, or flashes
- High Blood Pressure
- Diabetes
- Eye pain / Headaches
- History of head or eye trauma
- Family history of glaucoma
- Family history of macular degeneration
- Strong eyeglass prescription

Insurance companies do not cover the fee for these tests as they are considered “screening” tests. If there are medical findings that require more detailed testing, medical insurance may apply for the additional testing. The screening fee will be added to your examination fees today.

Cost for retinal imaging (**please circle and initial one option**) :

1. HD Retinal Photos *only*: \$39 _____
2. 3D-OCT *only*: \$39 _____
3. **Full Wellness package** (both photos and 3D imaging) : \$50 _____

___ I DO wish to participate in the advanced vision screening to assist in early detection of eye disease, and understand I am responsible for the fee above since it is not covered by my insurance.

___ I DO NOT wish to participate in the screening imaging.
